PROFESSIONAL SUMMARY

Full-Stack Developer based in Egypt with three years of production delivery, building and shipping business sites, stores and custom web applications end to end — database design, API layer, interface and deployment. TypeScript, Next.js, Prisma and PostgreSQL are the daily stack; Arabic-first AI integration and defensive hardening are applied to the products I run rather than offered as theory. Twenty-five verified certificates, published models and datasets on Hugging Face, and pull requests merged into codebases owned by Microsoft and Google.

CORE COMPETENCIES

Full-Stack
TypeScript · Next.js 14 (App Router) · React · Node.js · Prisma · PostgreSQL · SQLite · tRPC · REST APIs

Frontend
HTML5 · CSS3 · Sass · Tailwind CSS · Responsive design · WCAG accessibility · Markdown

Backend & Data
REST APIs · tRPC · Prisma ORM · PostgreSQL · MongoDB · Redis · Auth.js · JWT in HttpOnly sessions

AI & Machine Learning
Python · Pandas · NumPy · TensorFlow · PyTorch · Ollama · LangChain · Vector search · LLM APIs (Groq / OpenAI / Gemini)

Models & Datasets
Hugging Face · Qwen2.5 · AraGPT2 · LLaMA · Gemma · Mistral · Fine-tuning (QLoRA / SFT) · Dataset publishing

DevOps & Cloud
Docker · GitHub Actions CI/CD · Nginx · Vercel · Netlify · Linux · Bash · TLS · Logging & rollback

Security
OWASP Top 10 · Server-side validation (Zod) · Rate limiting · Security headers · Secret management · Dependency audits

Engineering Practice
Conventional Commits · Semantic versioning · Unit & regression tests · Black · Docs-as-code · Code review

EXPERIENCE

Karjoka — Platform Founder & Lead Engineer

`2023 – present`

Independent / Self-directed

- Design and deliver production web applications end to end — domain model, API, interface, deployment.
- Architect full-stack solutions with Node.js, Bun, Svelte, MongoDB and tRPC.
- Set up CI/CD and containerised deployments with Docker and Netlify.
- Work directly with clients on scope, estimates and handover documentation.

Local AI Infrastructure Specialist

`2024 – present`

Personal R&D / Open Source

- Deploy and maintain offline LLM environments with Ollama for local AI workflows.
- Build agent-based automation that amplifies developer productivity pipelines.
- Evaluate and integrate open models: LLaMA, Gemma, Mistral and Qwen.

Open-Source Contributor — InvokeAI

2024

Community / GitHub

- Built an Arabic localisation and documentation framework for the platform.
- Authored structured i18n translation files serving Arabic-speaking communities.

Game Development Engineer — Unity

2022 – 2024

Independent Development

- Built game mechanics, AI behaviour trees and multiplayer networking in Unity and C#.
- Integrated the PlayFab cloud backend and Plastic SCM for collaboration.

SELECTED PROJECTS & OPEN-SOURCE WORK

islam-elite-portfolio `Next.js · TypeScript · Tailwind`

18 production web applications delivered as one showcase site, each runnable with live demos.

`github.com/aslamalkarywk7/islam-elite-portfolio`

TurboQuant `TypeScript · WebAssembly · Node.js`

Lossless compression for every file type, shipped with a browser-based console.

`github.com/aslamalkarywk7/TurboQuant`

AndroidReverseEngineering-Guide

`Markdown · Tooling · Automation`

The most-starred repository in the account — a practical reverse-engineering guide.

`github.com/aslamalkarywk7/AndroidReverseEngineering-Guide`

MasryGPT models & Arabic datasets

`Qwen2.5 · QLoRA · PEFT · Transformers`

MasryGPT-Chat-1.5B, a lightweight LoRA adapter and an image model, plus four Arabic datasets.

`huggingface.co/ISLAM-PO`

microsoft/markitdown — XLSX currency labels

`Python · pandas · openpyxl · pytest`

Restores currency labels that pandas drops, including section-, condition- and locale-aware number formats.

`github.com/microsoft/markitdown/pull/2538`

microsoft/markitdown — Arabic/RTL PDF normalisation

`Python · Unicode NFKC · pytest`

Normalises Arabic Presentation Forms in the built-in PDF converter with encoding-proof regression tests.

`github.com/microsoft/markitdown/pull/2539`

CERTIFICATES & BADGES (25)

Every certificate is issued and verifiable — the full list with PDF originals is published at **aslamalkarywk7.github.io/aslamalkarywk7**.

EDUCATION

Management Information Systems & Business Administration

`3rd year — expected 2029`

Higher Institute of Computer Science and Business Administration, Zarqa

- Enterprise systems design, database management, systems lifecycle and business process engineering.

Electronics Engineering — foundation

`2021 — 2024`

Secondary technical education

- Electronics systems, embedded logic and computational theory fundamentals.
