

Islam El-Nashar

Web Developer (Next.js / TypeScript / Prisma) - Egypt

I build websites and web apps, with AI integration and site hardening as supporting skills. Open for freelance: business sites, stores, custom web apps.

Hugging Face: huggingface.co/ISLAM-PO

PROFESSIONAL SUMMARY

Web Developer from Egypt focused on full-stack web and Arabic-first AI integration. Production stack: TypeScript, JavaScript, Next.js, React, Node.js, Prisma, PostgreSQL/SQLite, Tailwind. Supporting: chat/content/translation endpoints in Next.js sites, plus hardening (auth, XSS/CSRF, validation, rate-limit, secure headers). Game dev, mobile/desktop and long language lists are curiosity only.

CORE SKILLS - BY DOMAIN

Frontend: HTML (Structure), CSS (Styling), Tailwind, Sass, React, Next.js (Full-stack React), Svelte, jQuery, AngularJS (Legacy)

Backend: Node.js, Bun, Express.js, Django, Flask, WordPress (CMS stores), tRPC (Type-safe API), Directus, Logto (Auth)

Languages: JavaScript, TypeScript, Python (Backend/AI), PHP (Backend web), Go (Cloud), C# (.NET), C/C++ (Systems/Games), Java (Android/Enterprise), Dart (Flutter)

Databases: PostgreSQL (Primary), MySQL, MongoDB, Redis (Cache), SQLite, Prisma (ORM), Firebase, Cloudflare R2

AI Integration: OpenAI API, Gemini API, LangChain, Hugging Face, Pandas/NumPy (small preprocessing). Integrator, not researcher.

DevOps and Deploy: Docker, GitHub Actions CI, Vercel/Netlify, Nginx/Node, Bash, Sentry/Lighthouse. Linux: deploy and run web apps.

Game - Unity standalone: Unity (Engine), PlayFab (Game backend), Blender (3D). No shipped title - not a hiring claim.

Tools and Design: VS Code, Postman, Figma, Photoshop/GIMP, Audacity/DaVinci, Obsidian. Spoken: Arabic, English, Spanish.

SELECTED PROJECTS

- islam-elite-portfolio - 18 live web projects with demos. github.com/aslamalkarywk7/islam-elite-portfolio
- TurboQuant - lossless compression for every file type + web console (Vercel-ready). Python/ JS/ Go/ Java/ C#.
- AndroidReverseEngineering-Guide - most-starred guide (6 stars), defensive research, educational only.
- Yaqout (yaqout-langar) - fully Arabized Lua interpreter with Arabic keywords.

OPEN-SOURCE CONTRIBUTIONS (VERIFIED PRS)

- microsoft/ markdown#2538 - fix(xlsx): keep currency labels - APPROVED, awaiting merge.
- microsoft/ markdown#2539 - fix(pdf): normalize Arabic presentation forms - OPEN.
- google/ adk-python#7198 - partial-backed tools naming - OPEN. 51/ 51 green.
- genkit-ai/ genkit#6387 - skip re-registering dynamic tools - feedback addressed. 33 tests pass.
- genkit-ai/ genkit#6386 - read GOOGLE_CLOUD_LOCATION - feedback addressed. 57 tests pass.

Full story and Q&A: CONTRIBUTIONS.md. Microsoft CLA signed, Google CLA passing.

AI ASSETS (HUGGING FACE - ISLAM-PO)

- MasryGPT-Chat-1.5B - Egyptian Arabic chat, Qwen2.5-1.5B QLoRA/ SFT - about 1181 downloads.
- MasryGPT-Flash-Adapter - lightweight LoRA on AraGPT2 - about 129 downloads.

- Glitch-Img-1.0 - image generation, experimental.
- Datasets: arabic-history-and-dialects, arabic-to-code-8-langs-3m, documents-Egyptian-Arabic, arab-dialects-20-countries-3m.

SERVICES

- Business websites, portfolios and stores (React / Next.js / Node.js).
- Arabic-first AI for sites: chat assistants, content and translation.
- Website hardening: audits, fixes, monitoring (own sites - not pentester for hire).

EDUCATION AND LANGUAGES

- Self-taught through programming, game design, software development and real open-source reviews.
- Spoken: Arabic (native), English, Spanish. Location: Egypt. Hireable for freelance.
